

SUMMARY OF ENVIRONMENTAL IMPACTS

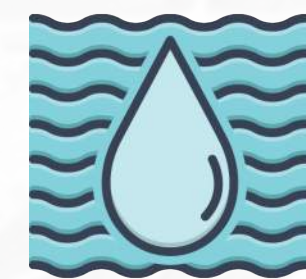

NATURAL ENVIRONMENT

Wetlands

3.97 Acres

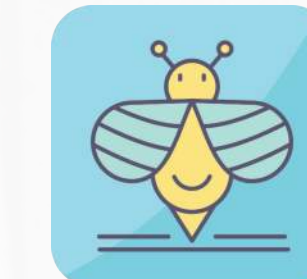

Waters of the U.S.

0.22 Acres

Floodplains

3.91 Acres

Threatened &
Endangered Species

Not Likely to Adversely Effect

HUMAN ENVIRONMENT

Total ROW

18.03 Acres

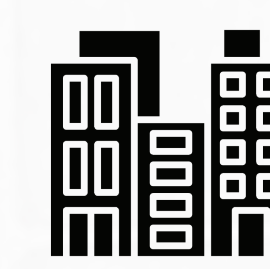

Parks

De minimis impacts to
Four Seasons Park

Residential Property

No Displacements

Business

No Displacements

Historic

No Adverse Effect

Noise

- Noise impacts are predicted to occur at two locations, but noise walls are not feasible or reasonable at these locations per IDOT criteria.
- Two existing noise walls will be relocated and reconstructed.

Environmental Justice

- Based on the current analysis, disproportionate impacts to minority or low-income populations are not anticipated.
- Do you have any concerns as it relates to the project?
- Has there been any historical discrimination along the I-55 corridor?
- If so, please let us know at airportand126study@v3co.com.
